

# PLANT NUTRITION 2022

## FROM MOLECULES TO TRAITS - HOW PLANTS FEED THE FUTURE

**4<sup>th</sup> – 5<sup>th</sup> October 2022 / Akademiezentrum Raitenhaslach, Germany**

The conference aims to form a bridge from basic research on molecular and physiological mechanisms of plant nutrition, via plant-soil interactions, to practical applications in crop improvement and fertilization.

### Topical sessions will focus on:

- Root Development and Function
- Genetics and Plant Nutrition
- Plant Nutrition for Indoor Farming
- Nutrient Signaling, Homeostasis and Functions
- Soil Fertility, Fertilizers and Fertilization
- Crops for a Healthy Future – Food Quality and Health

**... more details COMING SOON ...**
